Bike Ride

- 2.5+ years of expertise in cutting-edge Web and mobile technologies, including React Native, React.js, Angular, Typescript, and various JavaScript frameworks.
- Proven ability to rapidly acquire new technical skills to streamline processes and optimize code quality.
- Strong collaborator with effective communication skills, fostering seamless coordination among cross-functional teams.
- Committed to staying at the forefront of industry trends, continuously expanding knowledge and skillset.
- Seeking opportunities to contribute technical proficiency and innovation to dynamic organizations in frontend development.

WORK EXPERIENCE

Wizergos Software Solution

(13 June 2022 – Present)

Software Developer

- Highly skilled and innovative frontend developer proficient in Angular, React, and React Native.
- Played a pivotal role in enhancing the Wizergos low code platform, delivering critical functionalities on web and mobile applications.
- Proficiently implement responsive web design techniques using HTML, CSS, and JavaScript, ensuring optimal user experiences across a wide range of devices and screen sizes.
- Demonstrated expertise in building cutting-edge features from scratch using React Native.
- Actively contributed to architectural decisions, code reviews, and best practices for superior scalability and performance.
- Constantly updated with the latest advancements in Angular, React, and React Native, driving continuous optimization for an exceptional user experience.
- Actively engaged in agile development methodologies, such as Scrum, ensuring rapid and high-quality results.
- Exceptional troubleshooter, bug fixer, and performance optimizer, ensuring a robust and reliable application ecosystem.
- Collaborated seamlessly with cross-functional teams, fostering effective communication and integration of frontend components with backend systems.
- Quick adaptation to new technologies, fueling process improvements and enhancing overall development efficiency.

INFOSYS

(01 January 2021 – 10 June 2022)

SOFTWARE ENGINEER

- Proficient Angular 11 developer, contributing to the digital transformation of a major US Fin-tech client.
- Skilled in HTML, CSS, and JavaScript, enabling the creation of responsive and visually appealing user interfaces.
- Leadership role in onboarding and ramp-up process for new team members, ensuring seamless integration into the project.
- Successful design, development, and delivery of critical Angular 11 functionalities, leveraging the latest features and enhancements.
- Utilized agile methodologies (Scrum) and best practices like test-driven development (TDD) and continuous integration.
- Collaborated closely with cross-functional teams (designers, backend developers, QA) for effective communication and streamlined workflows.
- Demonstrated expertise in version control systems (Git), maintaining code integrity and facilitating efficient code branching and merging.
- Active participation in code reviews, architectural discussions, and implementation of Angular 11 coding standards.
- Proactively kept up-to-date with new Angular features, libraries, and tools to optimize development efficiency and innovation.
- Strong commitment to continuous learning, staying updated with industry trends, and contributing to organizational growth and success.

Elasticrun

(10 June 2019 – 10 August 2019)

Intern

- Develops and executes a responsive web application that smoothen guest's arrival in company premises through digitized check -in.'
- This responsive web application is develop on frappe framework .
- The main purpose of this web application is to make the process of check in shifts from messy paper work to an organized digital framework.
